

Mosaic Transit Constructors (Mosaic) - a consortium comprised of Aecon, Dragados, and Dufferin – is partnering with Metrolinx and Infrastructure Ontario to design, build and maintain the transformative Finch West Light Rail Transit (LRT) system in the City of Toronto.

Position: Assistant Construction Manager- Systems

Reports to: Construction Manager

Role Location: Toronto, ON

Summary of Position:

Mosaic is looking for an enthusiastic self-motivated Assistant Systems Construction Manager who thrives in a fast-paced environment. Management and execution of the construction and installation activities within time and budgetary constraints, and working in compliance with Health & Safety, Quality, Environmental Plans, and regulatory requirements applicable to the Project

Responsibilities:

- Report on all construction progress, technical and commercial issues related to the Construction and Installation activities.
- Identify potential problem areas and risks as they arise and develop and implement mitigation actions if and as required.
- Coordinate the preparation of schedule projections for construction activities per contract requirements
- Lead the interface coordination efforts with other contractors as required for timely completion of the project
- Provide constructability reviews of plans and specifications to evaluate scheduled activities and staffing requirements for each phase of construction, and coordinate the availability of requisite equipment
- Monitor work in progress to ensure that work is executed in compliance with the requirements of the contract and schedule
- In cooperation with the Project Control team, assist in monitoring and control of project budget
- Provide support to coordinate, direct and monitor activities of contractors/subcontractors.
- Provide support on subcontractor management.

Requirements:

- Minimum 5 years' experience in Systems Installation.
- The fields of expertise more valued for the candidates are: Signaling and train control, OCS (Overhead catenary system), Communications, Scada.
- Experience with P3 Projects desired. Experience in Design and build required.
- Experience with Light Rail projects preferred

- Knowledge of Scheduling software such as MSProject

Working Conditions/ Physical Effort:

- Combination of site and Office
- Able to perform in a fast-paced environment
- Prolonged sedentary positioning
- Walking, lifting, equipment operation, etc.
- Moderate physical activities
- Ability to use stairs, ladders and climb over rough terrain
- Primary work location is the Project site for Mosaic Transit Group

We offer a competitive compensation and benefits package in a fast-paced work environment. We are looking for innovative, forward-thinking people who enjoy challenges and want to work on leading-edge infrastructure projects.

We thank all applicants for their interest, however, only those selected for further consideration will be contacted.
