#### **Job Responsibilities:**

- Ensure the project is adequately resourced with the appropriate, qualified Quality and Environmental professionals required to successfully Design and Construct the Finch West LRT project.
- Ensure the Quality and Environmental teams are effectively integrated with the Design, Procurement and Construction teams.
- Provide regular Quality and Environmental progress reports to the Contracting Authority and MTC Executive Board.
- Establish effective collaborative Quality and Environmental working groups with the Contracting Authority, its Technical Advisors, the Independent Certifier, and other key project stakeholders.
- Develop and implement an ISO 9001:2015 compliant Quality Management System, including the Quality Manual, Quality Audit Plan, Design Quality Management Plan, Construction Quality Management Plan, Environmental Quality Management Plan, Traffic Quality Management Plan and Project Schedules Quality Management Plan.
- Develop and implement the project specific Environmental Management Systems and associated Environmental Management Plans.
- Coordinate regular Internal, External and Third-Party audits of the Quality Management System demonstrating compliance with ISO 9001:2015.
- Coordinate and facilitate annual Sr. Management review of Quality Management System, including review of Quality Objectives, Non-Conformances, and opportunities for improvement.
- Develop and successfully implement the project specific NCR Tracking System.
- Lead, motivate, support, mentor, and coach the Quality and Environmental teams.

#### **Qualifications:**

- Degree or Diploma in related engineering field

- 15+ years' experience in construction of transportation infrastructure
- Prefer ISO 9001:2015 Lead Auditor Certification
- PEng and/or OACETT certification and road construction designation preferred
- Project Management Professional (PMP) designation preferred

**Position Dimensions:**

- Excellent interpersonal, communication and leadership skills
- Strategic vision and ability to align stakeholders
- Strong focus on efficiency and process improvement
- Ability to make timely and effective decisions
- Ability to work under pressure and adapt to change
- Strong planning and organizational skills
- Excellent problem solving and troubleshooting experience
- Strong customer focus

We offer a competitive compensation and benefits package in a fast-paced work environment. We are looking for innovative, forward-thinking people who enjoy challenges and want to work on leading-edge infrastructure projects.
